Subject: BFI's El Centro landfill

Gary,

As we discussed earlier today, we are in the process of making arrangements for the disposal of 50 cu yd. of fiberglass insulation. The fiberglass is demolition debris from Tanks 20 and 24. We have classified the fiberglass as Class II non-hazardous waste. We plan to ship the waste to BFI's El Centro Landfill in Robstown, TX.

Below is the information that you have requested:

MSW Permit #2267
